

Company Profile

Website Design, Development & SEO Company in Panipat, Haryana

WHO WE ARE

Mantra Tech Fusion is a founder-led website design, web development and SEO company based in Model Town, Panipat, Haryana.

We build business websites, product catalogues, online stores and custom web applications that are fast, easy to use on a phone and simple for you to update yourself.

We also help businesses get found on Google and Google Maps, so the website brings real calls and enquiries, not just visitors.

Businesses in Panipat and across Haryana can meet us in person. Clients in Delhi NCR and the rest of India work with us over phone, WhatsApp and video calls, with the same written scope and support.

WHAT WE DO

Mobile App Development

Software Solutions

ABOUT US

A small, accountable web team in Panipat

Mantra Tech Fusion designs and builds business websites, online stores and custom web applications, and helps businesses get found on Google through SEO and Google Maps. We are based in Model Town, Panipat. Businesses in Panipat, Karnal, Sonipat and nearby districts can sit with us and plan their project face to face; clients elsewhere in India work with us over phone, WhatsApp and video calls.

Founder-led

You talk directly to the person who plans and builds your website, from the first call to support after launch.

Written quote first

Pages, features, timeline and price are written down before any work starts. No surprises later.

Built for phones

Most customers open your site on a phone, so every page is designed for the phone screen first and kept fast.

You own everything

Domain in your business name, hosting and admin logins handed over, and an admin panel to update the site yourself.

MEET THE FOUNDER

Vikrant Saini - Founder

Founder of Mantra Tech Fusion. Full-stack web developer and SEO practitioner who personally leads every project - from planning and design to development, launch and search optimisation.

Who we work with

- Manufacturers and exporters who need product catalogues that buyers in other states and countries trust.
- Shops, clinics, schools and coaching centres that want calls from people nearby through Google Maps.
- Brands selling online through their own Shopify or WooCommerce store.
- Growing companies that need custom portals, dashboards, booking or enquiry systems.

CLIENT REVIEWS

What clients say on Google

Rated 5.0 out of 5 from 25 reviews on our Google Business Profile. These are quoted from Google; read all of them at the link below.

★★★★★

"I got my taxi service website made by Mantra Tech Fusion and I received an excellent response. The website looks professional, loads fast, and customers can easily make bookings."

Rohit Saini - via Google

★★★★★

"Had a great experience working with Vikrant and his team. They were super helpful, quick to respond, and did an excellent job for one of my product websites."

Vijay Wadhwa - via Google

★★★★★

"The initial communication and planning phase was handled well, setting clear expectations for the project. The services have had a positive impact on our digital presence."

Parveen Dahiya - via Google

★★★★★

"They truly understand client needs and translate them into clean, user-friendly, and responsive websites. Attention to detail and timely delivery."

Dimpy Sharma - via Google

Common questions

What does Mantra Tech Fusion do?

We design and build business websites, online stores (Shopify and WooCommerce) and custom web software, and we do SEO and Google Maps (Google Business Profile) work so local customers can find you. We are based in Model Town, Panipat.

Can I meet you in person in Panipat?

Yes. Our office is at No 26, Indira Colony, Model Town, Panipat. Businesses in Panipat, Karnal, Sonipat and nearby cities can sit with us and plan the website face to face. Call or WhatsApp +91 9896433883 to fix a time.

Will the domain and website be in my name?

Yes. The domain is registered in your business name and you get the hosting and admin logins. You can change text, photos and products yourself from the admin panel.

What makes your website designing services stand out in Haryana & Panipat?

We design custom, mobile-first layouts around your customers and your goals - clear service pages, fast loading, and obvious call, WhatsApp and enquiry buttons that turn visitors into leads.

How long does a typical web project take?

A basic website takes 2-4 weeks. Complex web applications can take 2-6 months depending on requirements.

How does Mantra Tech Fusion approach SEO?

We start with an audit of your website and competitors, then fix technical issues, improve on-page content, set up and optimise your Google Business Profile and earn relevant links. You get a monthly progress report. No honest agency can guarantee a first-page ranking, and we never promise one.

Which platform will you use for my website?

It depends on what you need. Most business websites are built on WordPress or clean PHP, online stores on Shopify or WooCommerce, and custom software on Laravel. We explain the choice and the yearly running costs before you decide.

Do you work with businesses outside Panipat?

Yes. We meet clients in and around Panipat in person, and work with businesses in other cities over phone, WhatsApp and video calls, with the same written scope and support.
